**First Workshop on Pollution of Electrical Power Network Insulators  
POLIREL 2013, on April 29, 2013, USTO-MB, Oran, Algeria.**

### CALL OF PAPER

The Laboratory of Electrical Engineering of Oran (LCEO), the Department of Electrical Engineering and the Faculty of Electrical Engineering and is pleased to announce the organization of the first Workshop on the Pollution of Power Networks Insulators on 29 April 2013 in the University of Sciences and Technology of Oran – Mohamed Boudiaf. The specialists and experts in this field are invited to participate and submit papers.

**LANGUAGES:** English and French are the main language of the conference.

**FIELD:** The conference will welcome subjects related to outdoor insulation.

**PAPER SUBMISSION:** You are welcome to propose one or more papers of a six pages maximum (IEEE format) before March 31th, 2013 (for Electronic submission, please use doc. or pdf. format). Authors are invited to submit their papers to the followed links: [polirel2013@yahoo.com](mailto:polirel2013@yahoo.com) / [polirel2013@gmail.com](mailto:polirel2013@gmail.com)

#### TOPICS:

- A. Experimental characterization of flashover discharge of polluted insulators: criterion and physical mechanism of discharge propagation.
- B. Modeling of polluted insulators flashover and electrical field calculation.
- C. Characterization and measurement of insulators pollution.
- D. Application of new technics and technologies.

#### IMPORTANTES DATES

Deadline: March 31, 2013.

Notification of acceptance: April 13, 2013.

Submission of final version of paper and confirmation of participation: April 20, 2013.
